Subject: SO2 Designation Head UP

Hi Phillippa,

I wanted to let you know that signature on final SO2 designations is planned for tomorrow morning. The only controversial area is the Pekin, IL area. This was that area that had the interest of the Peoria TV stations because of the press release from the Sierra Club about the Edwards power plant. The quick background of this area is that Illinois came in with initial recommendations. We added a township to include the Edwards power plant in the 120 day letters. Illinois did not respond to this change, however, the power plant responded adversely. Our final decision still includes this power plant. On a HQ call earlier, it sounded like they would answer general questions but would defer specific area questions to the regions. Let me know if you have further questions on this area or any other area. John Summerhays and Doug Aburano will also be around tomorrow if you have questions. John and I will also be around Friday.

Thanks,
Sarah Cervak
